

Dear Admission committee,

Subject: **Letter of Motivation**

I have graduated in Computer Sciences from ( previous University Name), (Country name). I would like to pursue more advanced knowledge in this field apply it to IT industry as well as contribute to research and academia. I now apply for acceptance into your MS program, Master of Science (M.Sc.) in Information Engineering with the major focus on Intelligent Systems. Bachelor studies and industrial experience made me realised the importance of system development with artificial intelligence. The most appealing thing is even computer systems are being replaced by artificial intelligent systems. Following my passion and interest, I would like to resume higher education with the (German University name). It would be my honour to contribute to your research and gain invaluable experience in your group.

The undergraduate curriculum in Computer Science from (previous University name) introduced me to a wide variety of Computer Science subjects like Artificial Intelligence, Data Structures, Database system, Operating System, Computer Networks, Software for Mobile Device, and Web Programming. These subjects helped me to understand core fundamentals of Computer Science. I learned different programming languages; some of them are C++, HTML, CSS, PHP, MYSQL, JAVA and Android.

(Add some personal experience)

Graduating from this university will be a major milestone in my career. I believe my passion for technology and ability to solve real world problems combined with my desire to succeed will make me an excellent Computer Scientist, while the degree itself should equip me in invaluable skills that would take me to the forefront of research or an inspiring career.

Thank you for your time and consideration. I am looking forward to your positive response.

Regards,

(Your name)
